

自 静岡県周智郡森町 至 静岡県御前崎市

Figure 1 is a cross-section diagram of the benchmark point elevation. The diagram consists of two main parts: a top section showing a cross-section of the ground surface and a bottom section showing a cross-section of the ground surface. The vertical axis on the left is labeled 'cm' and 'm'. The horizontal axis is labeled '基準とした旧観測年月' (Old observation year used as a benchmark) and '2020年10月～11月' (October to November 2020). The right side shows a map of the area, including the location of the benchmark point (970819A) and the surrounding area (周智郡森町, 静岡県, 御前崎市, 遠州灘).
